We would like to express our thanks to our PlantwisePlus donors

CAB International (CABI) is an international, inter-governmental, not-for-profit organization established by a United Nations treaty-level agreement between our Member Countries, that improves people's lives worldwide by providing information and applying scientific expertise to solve problems in agriculture and the environment.

JAMES MUASYA MUSYOKA

Has completed the following course:

Sustainable Soil Management Practices

Certificate level

Practitioner

Grade (Pass Grade = 80%)

90.00 %

Duration

8 hours

Learning outcomes

- Outline the relationship between soil management, food security and the environment
- Develop knowledge about practical soil health solutions that work on a larger scale to address regional environmental issues
- Evaluate the broader regional context of soil health and advise farmers on practices that suit their individual circumstances
- Facilitate a network of farmers to share and promote effective soil management practices

Skills learnt

Skills Framework

This course maps to a range of related skills in the Skills for Agriculture Framework (SFA). By completing this course, you will build on the following skills:

Skill 1: Soil management

UN Sustainable Development Goals

The UN Sustainable Development Goals (SDGs) recognise that ending poverty and other deprivations must go hand-in-hand with strategies that improve health and education, reduce inequality, and spur economic growth. This course aligns with the following sustainability goals:
