### **TO WHOM IT MAY CONCERN**

This is to recommend Ms. JENNIFFER MWANGI, for consideration in your organization.

We have worked very closely with Mr. Jenniffer Mwangi for the last three years serving as research scientist in charge of conducting pesticide efficacy trials for herbicides, fungicides and insecticides for Agriwright Limited. Agriwright Limited is accredited by the Pest Control and Products Board (PCPB) to conduct efficacy trials of Plant Pest Products since 2020.

Ms. Mwangi has also actively participated in conducting various trainings like safe use of pesticides, data analysis and report writings. She has excelled in her role of managing experimental trials, data collection analysis and report writing. She has exhibited high level of productivity and maintains good work standards.

She has a positive attitude and energy while taking all her tasks. Her upbeat personality and engaging personal style enable her to interact effectively with colleagues and clients. She is well organized and keeps track of the details of every data to coordinate events in the field running efficient efficacy trials.

She is well skilled, hands-on person and always comes up with new ideas on how to handle different types of research work. I have no doubts on her ability to work and I'm confident that she will fit in and be of value wherever she works.

Please feel free to contact us for any clarification about Ms Jenniffer Mwangi.

Yours Sincerely

SALIM GICHUE
